# Shifra – Web App
User Manual

Table of Contents

1. Accessing the website:

- To access the site go to https://shifra.io/ . This will bring you to the home page of Shifra
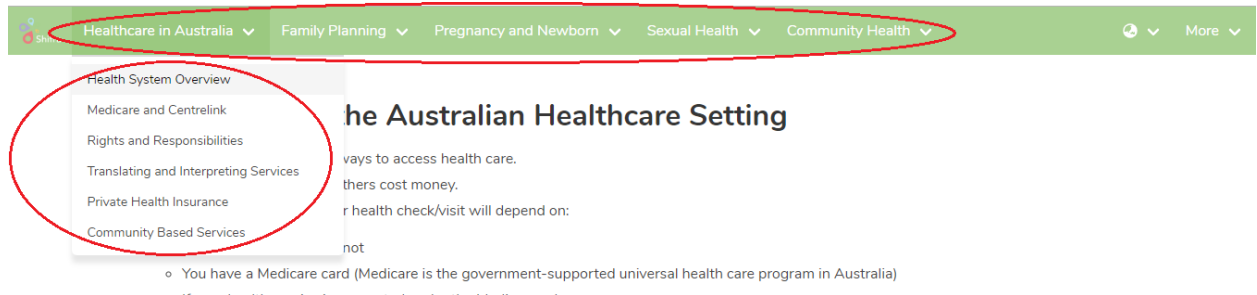

2. Navigating the website

• Home-Page

- Click on the *Shifra Logo* in the menu bar to get back to the home page from the current page on the website
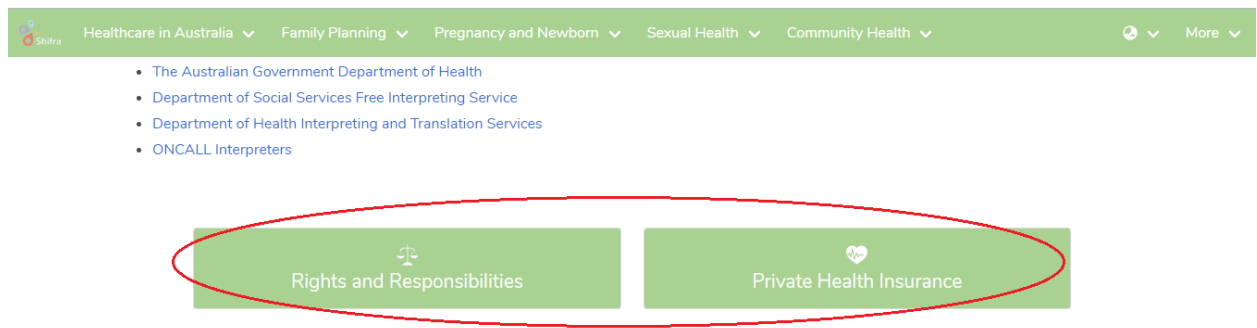

• Accessing an Article

- Point the mouse arrow on the desired section relevant to your interests.
- This will open a dropdown menu. Select an available article title from the drop down
- This will reroute the page to the selected article which contains content in the form of text and videos

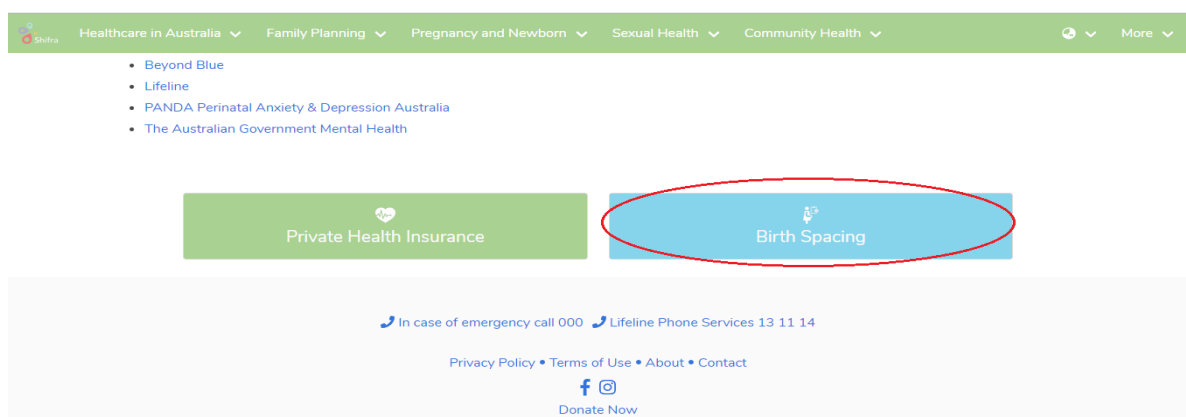

• Next/Previous Article

- The Next and/or Previous articles in line can easily be navigated to by clicking on the right or left buttons respectively at the bottom of the page allowing to read the section in a predetermined order.

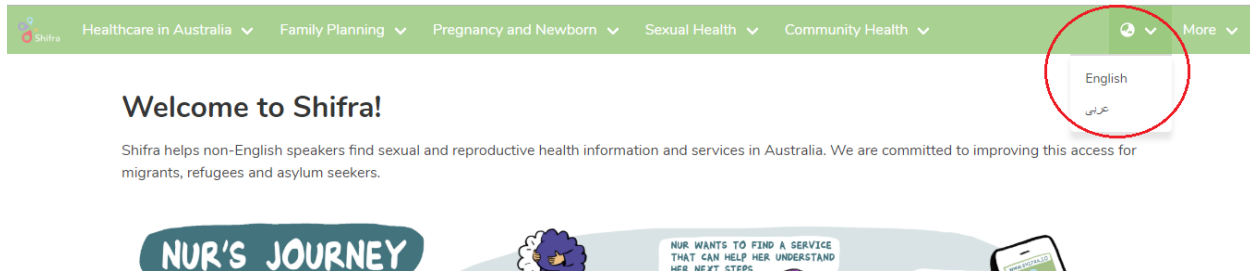

- In case if the current article is the last one for a particular section then the next button will lead to the next section in the app.
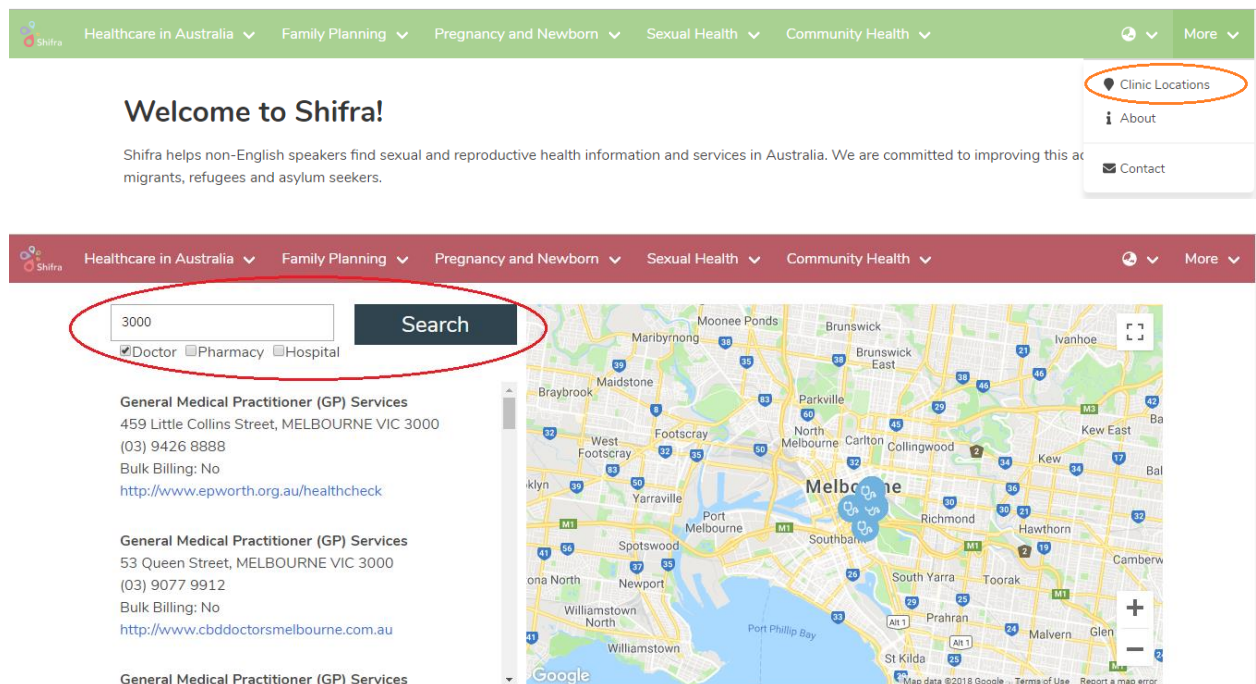

3. Changing Language

- Click on the globe icon
- Select the desired language for the page to be displayed in

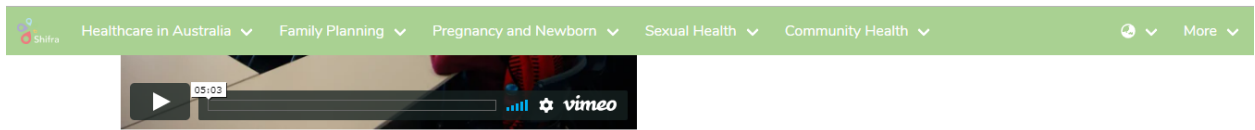

4. Searching for Clinics

- Click on *More* from the menu bar.
- Click on *Clinic Locations*
- Enter the postcode of the area to locate the medical service in and also select the preferred type of service by clicking the checkbox.
- Click the search button
- This will populate the list with all the available medical services in the selected region

__NOTE__: currently the search only works with postcodes and not the suburb name

5. External Links

- Any text highlighted with blue text contains a link to an external page not associated with Shifra and can provide further information on a given topic.
- The link can be accessed simply by clicking on it.

- Furthermore, there are a bunch of helpful links at the bottom which can be accessed from any page on the site. These contain
  - *emergency helpline numbers*
  - *privacy terms and conditions of the web site*
  - *contact link to the Shifra team*
  - *Social media pages of Shifra*
